

enliven
PRESBYTERIAN SUPPORT CENTRAL

Accessing short-term care

Enliven homes in Taranaki, Whanganui, Manawatu, Horowhenua, Wairarapa and across the Wellington region offer short term care services (subject to availability).

The cost of these services varies depending on your needs and circumstances. Funding may be available.

Give our friendly team a call to discuss your individual situation.

TAKE A BREAK
Short-term respite
& health recovery

Short-stay options

Enliven's short-term care can provide elders, and also family carers, with some well deserved rest and recovery.

Your stay, your way

All short stay guests have their own rooms, all meals provided and access to 24-hour practical assistance for the duration of their stay.

Guests are invited to take part in the home's tailored recreation activities and social events, including arts and crafts, quizzes and games, sight-seeing tours, music, entertainment and special events. They can also enjoy the companionship of others at a similar stage of life.

Respite

Respite offers elders a chance to enjoy a change of scenery, practical daily assistance and all that Enliven homes have to offer. Guests often tell us their stay feels like a "little holiday".

For family carers, Enliven's respite service offers the chance to take a well deserved break, all the while knowing their loved one is safe and well cared for.

Health recovery

Enliven's health recovery care, also known as convalescent care, provides older people with short-term hospital-level care. This service is perfect for people recovering from illness, injury or surgery.
